

TREGO VFP 500

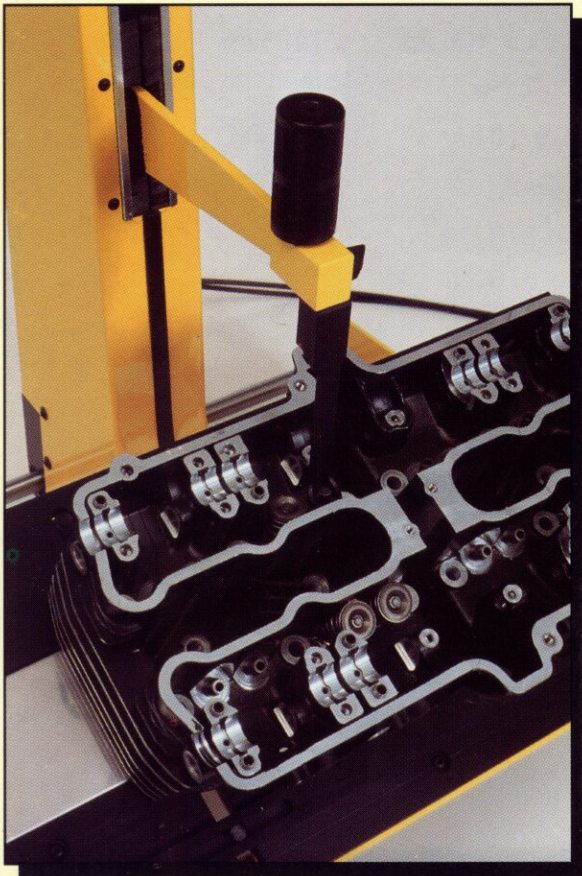

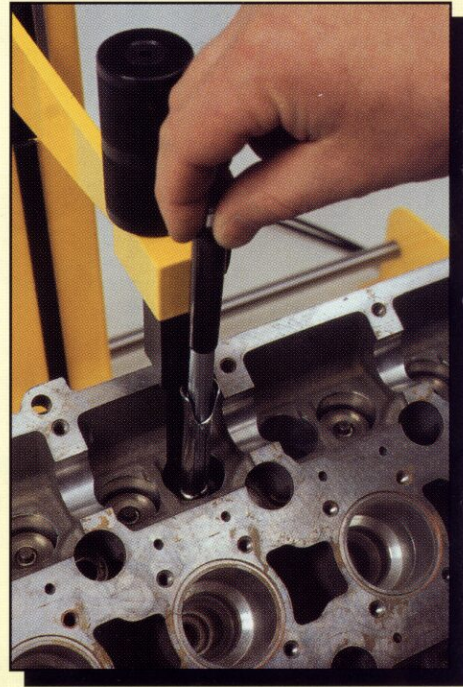

PNEUMATIC

VALVE SPRING PRESS

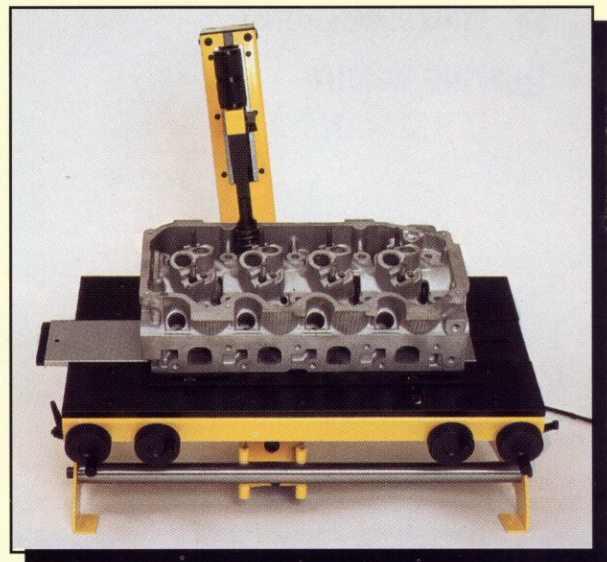

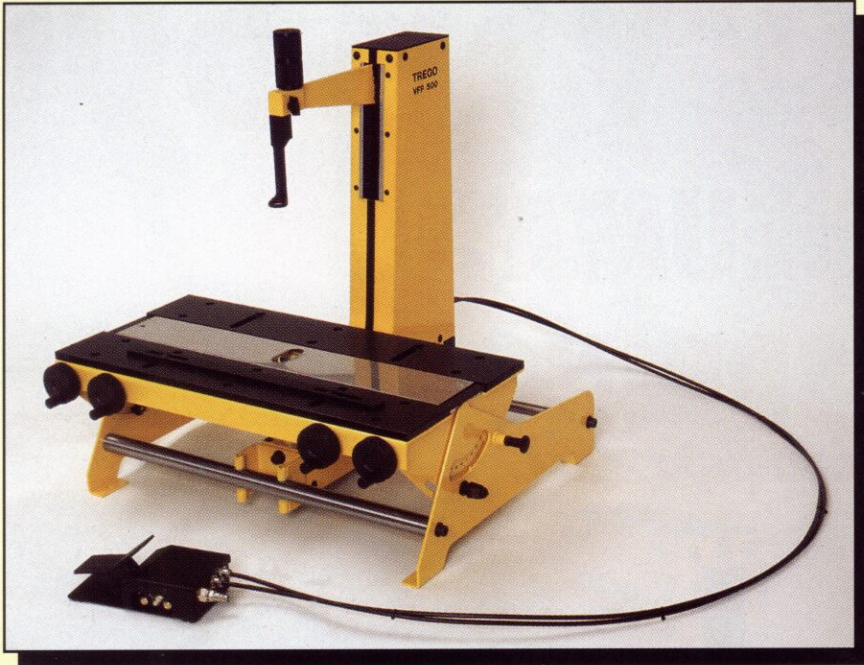

The valve keepers are easy to remove and replace, thanks to the open design of the pressure foot.

A smaller pressure foot is available for MC-heads.

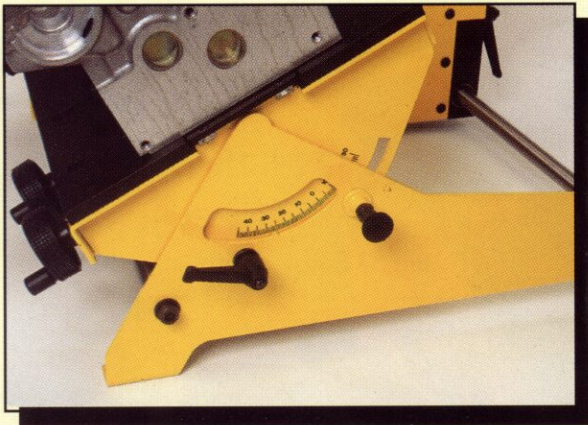

The post is adjustable 0° to 25° to both sides.

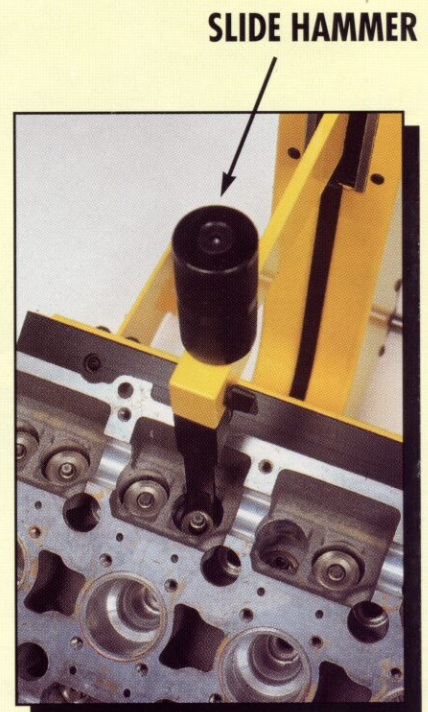

VFP 500 VALVE SPRING PRESS

For disassembly and assembly of valve springs on cylinder heads for cars, trucks and motorcycles.

VFP 500 Valve Spring Press is universal, fast and simple to use.

The table is adjustable 45° to the front and 30° to the back side.

Valve spring compressed.
